

Feb 10, 2013 I tried to install Xentry 9.2011 and it installed with no problem. . Tried to install 11.2012 - Have had no luck so far. . I think the installation is okay since it installed the update for 11.2012, and updated the Xentry but it does not see DAS Xentry. . it then downloaded the updates to DAS Xentry 11.2012, and installed them. . However the DAS Xentry 11.2012 folder . is not there so I cannot see it. . it is on my C:/ drive, and I have selected to install it there. . I have uninstalled this version and gone back to 11.2011 and it still does not see DAS Xentry. . I have tried to reinstall the installation but no luck. . Any help would be great, thanks.
